

Feature Comparison of the jetNEXUS Web Range

	Feature	Accelerating Load Balancer	Accelerating Load Balancer Extreme
Server Load Balancing	Layer 7 load balancing	✓	✓
	Slow-start server re-introduction	✓	✓
	Customizable server too busy page	✓	✓
	Automated per-channel fast failover	✓	✓
Load Balancing Methods	Round Robin	✓	✓
	Least number connections	✓	✓
	IP Sticky	✓	✓
	Cookie Sticky	✓	✓
Content Caching	GUI based cache control rule base	✘	✓
	Multiple caching profiles	✘	✓
	Configurable expiry	✘	✓
	Cache hit reporting	✘	✓
Server Health Checking	Ping server health check	✓	✓
	TCP connect server health check	✓	✓
	Simple HTTP server health check	✓	✓
	Full HTTP server health check	✓	✓
	Connection proxy capability	✓	✓
SSL Offload	High performance SSL offload	✓	✓
	Native SSL decryption	✓	✓
	Over 1,000 tps	✘	✓
	Simple certificate import	✓	✓
	Auto generation of certificate requests	✓	✓
	Simple certificate export	✓	✓
	Ability to create self signed cert	✓	✓
Management	Active-Active	✓	✓
	Secure web based interface	✓	✓
	SNMP (U1,2 &3)	✓	✓
	Online configuration file back up	✓	✓
	Software updateable via GUI	✓	✓
	Command line interface CLI	✓	✓
	Email Alerting	✓	✓
	Real time stats	✓	✓
	Configurable Network duplex/ speed	✓	✓
	DNS resolution	✓	✓
	Dedicated management interface	✓	✓
	Optional client IP x forwarding	✓	✓
	W3C web transaction logging	✓	✓

Feature Comparison of the jetNEXUS Web Range

Content Acceleration	W3C log file offload		
	HTTP compression		
	Inline content Substitution		
	Content exclusions – by rule		
	Configurable compression		
	Personal firewall compression		
	Browser rule base compression		
	Point to point compression-decompression		
	Streaming compression		
	Accelerate HTTP 1.1 through HTTP 1.0 proxies and caches		
	Connection Management	Connection management	
Connection pooling			
Connection capping/limiting			
Compatibility	RoHS compliant		
	PCI DSS		
	FCC approved
